(B) OUTCOMES

- Are outcomes being reported? - How strong are the outcomes? Are the outcomes relevant and important to our community?
- How many members of the community are being served (note: this isn't included to confuse the issue of "outputs vs. outcomes" - but rather to see if the agency is delivering enough quantity of outcomes to be "relevant to the community.")?
- Has the nature of the program dramatically changed from previous year(s)? Is it a totally different program that existed when the agency first applied for partner agency status?
- Are similar services offered / outcomes delivered elsewhere?

(C) OPERATIONAL EFFECTIVENESS

- How are costs per unit served trending? Are the unit costs reasonable?
 - Are outcomes being efficiently delivered?
 - Is the agency financially sustainable?
- Mr. Sampsell suggested that the process/policy for donor designations be looked at in the future in light of current designations that may not be in line with our mission/vision.

On a motion from Mr. Gunn and second from Mr. Krentzman the meeting was adjourned at 5:28pm.
